vOffice User Guide

This user guide is intended for users who already have vOffice access. Please note that vOffice access is not enabled by default and must be requested through IT Service Catalog.

Note: Please skip this step if you already have enrolled your mobile device and the Microsoft Authenticator is installed.
If not, you are requested **first** to **complete the enrollment for Multi-Factor Authentication (MFA)** using the guides below:

- iOS M365 Enrollment Guide
- Android M365 Enrollment Guide

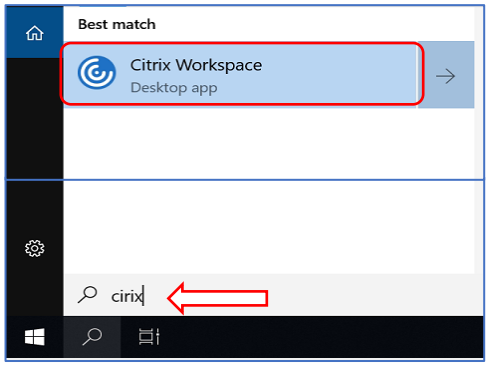

Windows Devices:

A. Using your computer **at the office** while connected to ADIB network through Wi-Fi or cable, **please follow instructions in section 1/A (click here)**
B. Using your computer **from Home**:
   - On Personal Computer, **please follow instructions in section 1/B (click here)**
   - On ADIB Computer, **please follow instructions in section 1/B starting from point 9 (click here)**
